That means FMB funded the PR. Therefore, funds are committed, now contracts take over to do what they need to do to get funds obligated.

Karen – Correct me if I'm wrong.

Thanks Carlos. I apologize but does this mean there is no more EPA approval and GES will be notified of the increase?

Thanks

Thanks. Hopefully, we can get this processed. We have had some obstacles with this one with personnel being out the last two weeks.

Eric,

It appears that there was a system problem when this requisition was approved. It did not interface with Compass. It needs to be approved again by Alexida or Esther. They are both out of the office. I am not sure if Carlos can approve it.

Carlos,

If you have access rights and need me to re-route it to you, please let me know. Thanks.

Good Morning All:

I am sorry to bother you but I really need this increase processed. We are running low and need to order storage containers this week in order to continue operations when we return to the Site. Please let me know the status.

Thanks

Mark,

The requisition has been sent to John Prince for DD approval. Please disregard what I said about routing it back to you for branch chief's review. Since you canceled the original route and annotated that you are acting for Joe today, it did not need to go back to you. Sorry about the confusion. Thanks.

Thanks Karen. Can you give me a guestimate on the timing of that? I am not sure if that means it's in finance any day now or it just got there and it could be a week.

Thanks

Subject: Task Order Increase request, GES TO 023, Niagra Falls Blvd.

Tony,

EAS Request # 00280, in the amount of \$200,000, is being requested to increase Task Order 23 with Guardian, the Niagra Falls Blvd. Site. With this increase, the new Task Order ceiling will be \$500,000. The ERRRD Director verbally authorized a mitigation ceiling of \$500,000 for this Site on May 13, 2016. The funding is necessary to continue with removal action activities which include the excavation and disposal of soil contaminated with radionuclides and to conduct all appropriate restoration actions. As you know, Eric Daly is the OSC of record for this Site. The IGCE form is attached to the EAS request and to this email for your convenience.

Please contact Eric or myself should you have any questions regarding this request.

Thanks,

Mark
